GERMANY

# Design floor Silent Touch™ – The supple and slim design floor.

## Kind to bare feet

Warmth and special elasticity make this floor a foot-friendly companion in everyday life.

## Vibrant surfaces

The Silent Touch planks are slim and supple and incomparably flexible.

## Fits under doors

With a minimum product thickness of only 5mm, this flooring fits under each door and is thus particularly renovation-friendly.

# Traditional vinyl flooring vs. design flooring Silent Touch™

Traditional vinyl flooring with thermoplastic core and open joint

Traditional vinyl flooring:  
Thermoplastic core may develop  
“bubbles” in the top layer

Traditional vinyl flooring: Irregularities caused  
by old sub-floors may show on the surface

**DD 300 Silent Touch™** AquaSafe special board  
with secure click connection and closed joint

**Silent Touch DD 300** special wood-based  
panel: Does not show any reaction to warmth  
or sun exposure

**Silent Touch DD 300:**  
Excellent levelling capacity of irregular sub-floors

# Unbeatable technical properties

- | Properties according to EN 16511 (MMFA standard)

## Suitable for project use:

- | Wear class 23|33

- | Anti-slip class R9
- | Hardly flammable Bfl-S1

## Perfectly stable:

- | AquaSafe special core board  
- a specially developed wood-based panel
- | Excellent levelling capacity of irregular sub-floors

# Unbeatable technical properties

## Easy and secure click connection:

- | Proven click system Multiclic, secure even in case of temperature fluctuations

## Extra quiet:

- | Ideally combined with the MEISTER Silence 15 DB | 20 | 25 DB underlay
- | All-round micro-bevel

## Spacious format:

- | 216mm × 2150mm × 5mm

# Excellent - design floor by MEISTER

## The supple and slim design floor.

Silent Touch combines the best features of a flooring - this makes it the sum of all floors. With meticulous craftsmanship, a sense for design, a great knowledge and technical experience we have managed to create a floor that makes a lot of things easier and some things very beautiful.

## 100% PVC-free

We never use PVC in the production of MEISTER design flooring. Standard PVC floors, also known as vinyl floors, often contain harmful plasticisers containing phthalates, which are not compatible with our understanding of a floor that is healthy for living. As a healthy and environmentally-friendly alternative, we only process 100% PVC-free odourless PET in the *Puretec®* surface, which is a harmless material from the polyester family that is also used in the food industry, for example.

## MEISTER warranty

We are so convinced of the quality of our cork and linoleum floors that we give you a 10-year warranty for surface wear in private living areas. A Meister floor is a floor which you will love for many, many years to come because it is so easy to care for and has such a high-quality appearance and excellent durability.

Warranty according to the MeisterWerke warranty conditions at [www.meister.com](http://www.meister.com)

## MADE IN GERMANY

We are firmly rooted in our location and see it as much more than just the name of where we come from. For us, „Made in Germany“ also means top quality standards. It is our daily challenge to meet these.
