---

## *A decision for quality*

As a German family-owned business from the Münster region we have dedicated ourselves for more than 50 years to developing products that are sustainable and are conducive to healthy living, while setting the highest standards in terms of function and aesthetics.

Taking nature as our example, we use our passion, expertise and flair for good design to create luxury vinyl tiles that bring together the latest designs and sophisticated technology combined with maximum resource efficiency for our shared environment.

With every ter Hürne plank you have a quality product beneath your feet, in which we have taken particular care to only use natural ingredients compatible with a healthy domestic environment.

Real values and new materials: These are what make our luxury vinyl tiles a floor for our time.

RESPONSIBILITY

## Act sustainably

*Because we need the environment  
— and not the other way round*

We have nature to thank for the material wood. That is why the responsible treatment of this valuable resource is one of our fundamental operating principles.

ter Hürne is FSC® and PEFC™ certified and supports the environmental and social aspects of a fully traceable and recognised sustainable forestry sector. The careful selection of the growth regions and the trees growing within them are crucial for the high quality standards of ter Hürne.

The principle of sustainable economic and resource-saving trade is a fundamental part of our philosophy and extends to all areas and processes of our company. We even use the sun as an energy supplier for our production.

*ter Hürne is an FSC® and PEFC™-certified company.*

The mark of  
responsible forestry

# Living in a healthy home environment

---

*You can breathe deeply with us*

Clean, uncontaminated indoor air is more than ever vital for health, well-being and a high quality of life. As manufacturers of products for interior design we have a responsibility for healthy living which we fulfil conscientiously and transparently.

Plasticisers are necessary to give a vinyl floor its elasticity. We use plasticisers obtained from soya beans, and are thus perfectly safe from an environmental health point of view and which are even used in the food industry. The use of bio-based plasticisers means that ter Hürne luxury vinyl tiles are free from phthalates. The selection of sustainable raw materials distinguishes ter Hürne luxury vinyl tiles from conventional vinyl flooring.

During the manufacturing process only pure raw materials are used and we deliberately do not use any recycled materials. Thus we can guarantee the constant high quality of all the components used in every single plank.

A new floor covering stays with us for many years – choosing a ter Hürne floor covering is also always a choice for healthy living and the environment.

## Vinyl 3 in 1

---

### *The right floor for every application*

The ter Hürne luxury vinyl tiles range contains a selection of 36 different designs in a wide range of formats, colourways and surface structures – the right floor for every taste in interiors and colours.

Our luxury vinyl tiles are available in three versions to offer practical solutions for all room situations and substrate conditions. From a 2.5 mm thick sheet for bonding, to the compact 5 mm solid vinyl version, and right up to the 9.1 mm thick version on HDF board.

## **PRO**

Thanks to their low installation height, the 2.5 mm thick PRO luxury vinyl tiles are the perfect floor for refurbishments. PRO luxury vinyl tiles are fully bonded, thus achieving additional robustness and a consistent attractive floorscape. This floor covering scores particularly well in commercial premises with large areas and heavy traffic. It consists of 100% water-repellent materials, so that it is ideally suited for all rooms where water is handled.

## **COMPACT**

The COMPACT luxury vinyl flooring offers nearly all the benefits provided by the PRO version. One important difference is that the 5 mm thick solid vinyl version has the patented CLICKitEASY click connection that guarantees rapid and safe floating installation.. Just like the PRO version, the COMPACT luxury vinyl flooring also consists of 100% water-repellent product components, so that it is also suitable for wet rooms. An integral glass fibre mesh protects the floor from thermal expansion thus providing additional safety.

## *Comfort*

As the name implies, COMFORT luxury vinyl flooring is truly comfortable. It consists of a vinyl surface layer applied to an HDF baseboard. The floor thus has additional installation height, that hides any irregularities in the substrate and provides a perfect walking experience. Like the COMPACT version, it also has the CLICKitEASY click connection for rapid and safe floating installation. The swell-resistant baseboard has an integral cork impact sound insulation that reduces footfall sound many times over. Simply comfortable.

# Multicolor

---

## *Atmospheric interplay of colours*

Multicoloured floor coverings are one of the current trends in residential and commercial spaces. The designs of these multicoloured floors range from striking multistrips to planks in various colours. All versions share one thing in common – they make a great impression with their different features and the overall effect is unusual and individual.

Apart from the colour, the impression of uniqueness is further emphasised through the combination of wood species and surface structure of these designs. Fantasy patterns and ornaments can also be added as an additional style element, as exemplified by our understated on trend **Vancouver grey oak** decor.

When developing our Multicolor designs, we make sure that the various colours and materials are combined in a harmonious and visually appealing way. That is a feature of ter Hürne luxury vinyl tiles.

F06 | EOak Vancouver grey |

G01 | Pine Valencia beige brown | long plank

G07 | Oak Malmedy beige | multi strip

I08 | Oak Kyoto anthracite | multi strip

**Highlight**

# Herringbone

---

## *A classic reinterpreted*

With two new herringbone patterns we have breathed new life into this classic installation pattern.

The individual staves in our herringbone decors are laid at an angle of 45°, creating a particularly elegant effect, especially in large rooms. A real eye-catcher with a unique interplay of light and shade.

Our designs are based on historic floors, in which we have deliberately adopted the hand-crafted look. Slightly imprecise transitions are deliberately included in the decor image, which add to the charm of this vinyl flooring.

J11 | Oak Sofia beige | herringbone

J12 | Oak Oakland brown | herringbone

# Stone Medina grey

---

## *A different sort of tile*

Stone Medina grey is based on a slightly banded limestone with a warm grey colour that creates a feeling of comfort and elegance. It is the perfect all-rounder for almost every residential situation.

It is available in two versions: in tile format and also as a plank. That also offers several opportunities for creating really eye-catching floors. A stone surface in a classic timber floor board format draws attention to the floor and highlights individuality of taste. Both tile and plank formats can also be combined to form various laying patterns.

**Highlight**

J01 | Stone Lucca white | natural stone

# Stone decors

---

## *Luxury vinyl flooring with class*

Stone-Choice is one of the highlights in our luxury vinyl tile range. You can choose your favourites from ten different stone effects. It ranges from warm cream and beige tones to bolder and darker shades and includes classic rocks like sandstone, marble and granite – all perfectly recreated from nature and combined with the practical benefits of a vinyl floor.

An impressive aspect of our tiles is their format. At around 900 x 450 mm (depending on the version), we offer an extra large format that creates a sense of generosity and width in the room.

- Simple installation, thanks to the patented CLICKitEASY connection
- Usage class: 23/32
- Aqua-protected HDF baseboard
- Integrated cork impact sound insulation
- 24 decor variants in all plank dimensions
- Hardly any subfloor preparation required

# Installation method

---

*Simple, quick, secure and: self-installed*

**CLICK IT EASY**

With CLICKitEASY you can install your floor yourself like a professional – simply, quickly and securely. That is thanks to our ingenious, patented connection system based on the door lock principle. The head ends of the planks click together with only light pressure. A tongue made from stable plastic incorporated into the head end ensures that both planks lock together simply and securely like a door lock. This ensures a permanent and strong joint. CLICKitEASY is the perfect system for a floating floor installation without adhesive, hammer and tapping block or for glue down installation.

*The film:*

---

[www.terhuerne.de/en/floor/clickiteasy-gb/](http://www.terhuerne.de/en/floor/clickiteasy-gb/)

# Grooves

---

## *The right frame*

Grooves frame planks and emphasise their form in the floorscape. Depending on the colour and contrast with the decorative image, they can either have a very prominent or restrained effect. Always perfect.

**V-GROOVE**

The unobtrusive V-groove frames the wood and stone designs on all four sides.

# Dimensions and designs

## *Spatial effect*

The proportions of the planks not only determine the appearance of the floor, they also have a decisive influence on the overall ambiance. So for example, long planks will give your home a feeling of extra spaciousness while narrow planks lend the space a sense of refined elegance and balance.

# Surface structures

---

## *Feel what pleases you*

All luxury vinyl tiles decors are characterised by natural colours and harmonious colour gradients and grain patterns. The range consists of over 13 different surface structures which underscore the looks and feel of this vibrant décor image.

Every individual structure is carefully coordinated with the decor, thus ensuring a natural finish and a perfect floorscape.

If we designate a structure as 'synchronous', the decor image and surface structure are identically aligned, and the hand feels what the eye can see.

Escape to your hammock, chill out and let your gaze wander. Swing gently feeling the lightness of being. Enjoy and grasp the tranquility with all your senses.

For this moment it is the right thing to do, for this moment ...

But now some voices can be heard in the distance, and a picnic blanket is spread out on the grass, with colourful plates and filled glasses. Loud laughter, high spirits and us.

Allowing nature to move into our own home and indulging in our memories whenever we need them.

Bright Choice Luxury Vinyl Tiles feature the gentle and warm colours of nature. They provide the same freedom we find there. Diverse and perfect.

Every day we face decisions, big and small, important and less important, elementary and superfluous. Trusting ourselves, taking steps at a pace we feel comfortable with. Having a positive attitude, feeling what makes us strong. Realising where our individual strengths lie and utilising them. It's all up to us.

Highlighting elements, with a sure sense of style, without losing sight of the essentials. Feeling comfortable in our own world.

Straight Choice Luxury Vinyl Tiles feature intense, dark colours with contrasting elements. They emphasise the personality of our rooms and have great impact.

*Stone decors*

**Jo7**

Cement Sydney medium grey\* |  
natural stone, concrete effect

Stones challenge us. We want to know what they feel like, whether they are smooth or rough, light or heavy. Taking up the challenge, stacking the stones, throwing them into water and watching them sink.

There is a lot to discover outside, every day. So, we have to keep our eyes open.

The Stone Choice decors feature warm limestone colours, modern concrete designs as well as black basalt surfaces. Remarkably natural-looking, with the advantages of solid Luxury Vinyl Tiles, and the possibility to install anywhere.

# Accessories — perfectly matched

---

*Because your floor is worth nothing less*

What constitutes a perfectly installed floor? On one hand, it looks beautiful and on the other — and you only notice that over time — it is characterised by its durability. To achieve this, what you need above all are the right accessories — both before and after the installation. Our underlay material and care products are perfectly matched to the specifications of our floors, significantly increasing their durability, appearance and feel. And with our functional transition profiles and decorative skirtings you will achieve the perfect finishing touches.
